

To Patients and Their Families

Regarding Medical Fees for Foreign Patients
(Not Enrolled in Japanese Public Health Insurance System)

We require more time than usual for accurate assessment of the patient's condition and explanations of treatment for foreign patients who are not enrolled in Japanese public health insurance.

In consideration of these additional costs specific to the care of foreign patients, our hospital calculates medical fees based on the following criteria:

Calculation of Medical Fees

Medical fees will be calculated at a rate of

30 yen per point

based on Japanese health insurance fee schedule.

This rate has been appropriately determined in accordance with the guidelines of the Ministry of Health, Labour and Welfare, taking into account the pricing standards adopted by medical institutions with a proven track record of accepting foreign patients (250 or more patients per year).

We appreciate your understanding and cooperation.
